

HELIOS
DRONE WASHING

SAFER. SMARTER. CLEANER.

COMMERCIAL DRONE EXTERIOR CLEANING

Professional soft-wash access for facades, windows, roofs, parking structures, canopies, and common areas - with less equipment, less disruption, and eco-conscious treatment options.

Exterior cleaning without the usual footprint

Helios helps property managers address elevated exterior surfaces while reducing dependence on scaffolding, rope access, and large lift equipment where drone operations are suitable.

SERVICES	SAFETY	ECO OPTION
• Facades and exterior walls • Windows and elevated glass • Roofs and parapets • Parking structures • Canopies, entrances, and walkways	• FAA Part 107 remote pilot • Remote pilot plus visual observer • Controlled ground operating area • \$1M aviation liability coverage • Weather-based go / no-go standard	• Citra-Shield where appropriate • Biodegradable and non-corrosive • No bleach, chlorine, or lye • No-rinse time-release process • Goal: a permanent state of clean

THE GOAL: A PERMANENT STATE OF CLEAN

Citra-Shield is a no-rinse treatment. Green staining may begin clearing within days; heavier black staining may continue fading over several months as natural weather exposure supports the process. Results vary, and severe areas may need follow-up treatment.

REQUEST A PROPERTY REVIEW

Start with the address and a few photos

We will review access, height, surface types, staining, nearby people and vehicles, drainage, airspace, and weather considerations before recommending a scope.

281-772-1708 | info@droneaerialsolution.com

Product characteristics and timing are based on current Citra-Shield manufacturer information. Results vary by site and surface. Mineral deposits, rust, oxidation, and efflorescence require separate evaluation. Operations are subject to site and weather conditions.
